21<sup>st</sup> Annual West Country Bull Sale  
April 14, 2007! Same time...Same Place!

## WEST COUNTRY SHORTHORN BULL SALE

20th Annual, April 8, 2006

### 35 PERFORMANCE TESTED SHORTHORNS

This year 50 Shorthorn bulls were consigned by Alberta Breeders to be tested for weight gain. This test began November 7, 2005 and concluded on March 23, 2006. The bulls were housed at Little Red Feeders, Innisfail, operated by Don Curtice.

Getting optimum growth through feeding, without burnout, takes careful planning. Rations are worked out by a nutrition analyst to ensure proper balance of all feed. Cereal silage, chopped hay, rolled oats and barley are augmented with minerals and a protein supplement to provide a balanced ration to bring out the best in these young animals and ensure they are ready to meet the challenge of the breeding season.

These bulls have a breeding guarantee for 90 days.  
(If there is a problem with a bull, the breeder must be contacted within 90 days)

### PERFORMANCE RECORD OF THIS CONSIGNMENT

**Average Weight March 23, 2006 :**            **1235 lbs.**

**Average Daily Gain on Test:**            **3.47 lbs/day**

A transferred certificate of registration will be supplied to all buyers some weeks after this sale. To ensure delivery by mail, be certain to leave both your full name and address on each buyer's slip.

The Consignors have brought these bulls here and are confident they will go home and work for you. If you don't get a bull today, any of our consignors will be willing to assist you in finding a herd sire replacement.

**ALL SALE CATTLE LEFT ON PREMISIS AFTER  
SALE DAY MUST BE INSURED BY PURCHASER.  
An Insurance agent will be on hand for your convenience.**
